

ERRATA 50TH BATAVIERENRACE

Last update: April 23, 2022

Due to road works and other circumstances, there are again a few changes to the runner and car route this year. This document shows all changes to the routes compared to the (physical) route booklet. These changes are leading and take precedence over the information listed in the route booklet. The fully correct representation of the route and times can be found on our website www.batavierenrace.nl and in the online participant booklet.

To avoid misunderstandings, it is wise to include ALL the errata in the route booklet. Write clearly in the route booklet what has been changed on the route! Do this not only for the night stages but also for the morning and afternoon stages! Experience shows that this is otherwise forgotten. So do not forget to write the errata throughout the route.

Furthermore, we recommend using the [online participants](#) booklet as much as possible!

ERRATA 50TH BATAVIERENRACE: AUTOROUTE

Page 39, to S.P. 13: Heelweg
